

# Your partner for IT

Goal-oriented and cooperative action in the sense of our customers is the first priority for us in the corporate philosophy. This is the basis for successful IT solutions that create sustainable benefits for the customer.

The realization of complex IT solutions is a real team game in which many people, systems and technologies are involved.

TEAM bears responsibility for integration - supported by intensive partnerships with hardware and software providers, consultants and planners.

# TEAM – Your partner for IT

**Goal-oriented. Partnership. Responsible.**

As an Oracle Platinum Partner, TEAM GmbH specializes in modern IT solutions and technology-related services.

The focus of the range of services is the efficient use of Oracle technologies and products in the various projects and subject areas.

These can be high-performance standard solutions, tailor-made individual solutions and comprehensive technology consulting.

TEAM is committed to providing future-oriented solutions and system architectures that fit your company perfectly.

A quick return on investment is as much a goal as the sustainable benefit of the solutions.

## **Tailor-made WMS for your warehouse on Oracle basis**

With the warehouse management system ProStore® TEAM is one of the leading software providers for innovative solutions in intralogistics.

Current trends such as digitalization and logistics 4.0 can be best implemented with ProStore®.

ProStore® is specifically adapted within the scope of project work in close coordination with the customer.

Via interfaces to surrounding systems or subordinate control systems, integration takes place into an IT solution that is optimally tailored to the customer's needs.

The close partnership with Oracle and hardware and software providers ensures that our solutions are always based on the latest technological developments.

Together in the TEAM we are there for YOU.

## **Tailor-made Oracle Services and support**

TEAM also offers software development, technology consulting, training and compliance management around Oracle:

- Oracle licensing
- Oracle consulting
- Oracle training & workshops
- Individual development based on Oracle ADF, APEX and JEE
- Migration of Oracle solutions
- Oracle Remote Services
- JasperReports

## **TEAM as project partner**

As a reliable and competent project partner TEAM supports you in every situation of your project - according to your needs:

- Consulting, system analysis and project management
- Secured use of methods
- Systems integration
- Delivery and integration of hardware
- Upon request with assumption of overall responsibility
- Comprehensive service concept
- Project management based on partnership

## **About TEAM**

As a medium-sized company with 70 employees, TEAM has been supporting its customers reliably, competently and with tailor-made IT solutions since 1982. Renowned companies from industry, trade and the service sector have been satisfied customers for many years. TEAM ist ein Mitglied der Materna-Gruppe.

**Please contact us. We are looking forward hearing from you.**
